OBJECTIVE

Recent B.Tech graduate in Computer Science looking for an opportunity to apply my skills in software development and problem-solving at an MNC company to support projects with my skills, knowledge and also to enrich team performance.

TECHNICAL SKILLS

- Languages: Java, SQL
- Backend Development: Spring Boot(Microservices, GraphQL), JDBC, Servlets
- Frontend Development: React.js
- Database Management: MySQL, PostgreSQL, MongoDB
- Cloud & DevOps: AWS Cloud Practitioner, Docker, Kubernetes

MINI PROJECTS

OTP Generation & Two-Factor Authentication

- Implemented OTP generation and two-factor authentication (2FA) using the Twilio platform to provide security in user authentication.

Image & File Upload System

- Developed a feature allowing users to upload and manage images/files efficiently, ensuring secure storage and retrieval.

Automated Email Notifications for Course Registration

- Configured an automated email system to notify students upon successful course enrollment, improving user experience and engagement.

Database Mappings & Relationships

- Designed and implemented entity relationships using JPA, optimizing database structure and query performance.

Small Projects in JavaScript & React.js

- Built small-scale applications and interactive UI components using JavaScript and React.js to improve frontend development skills.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering.

Annamacharya Institute of Technology and Sciences | GPA:8.9 | Oct 2022-May 2026.

ADDITIONAL ACTIVITIES

- Completed Internship in AWS – Gained hands-on experience in cloud computing, AWS services and deploying strategies.
- Organised CODEZEN Competitions – Successfully coordinated and managed CODEZEN coding competitions, encouraging competitive programming and skill development among fellow students.
- Interests: Presentations, Learning New Things, Travelling.
